WASHINGTON, Dec. 4.-The result of the recent elections has been to bring joy to at least one section of the Democratic party. THE REAL SENTIMENT

Of Democratic Members of Congress on the New Tariff Bill.

WASHINGTON, Dec. 5 .- The gathering of the members of congress offered an opportunity to get at the real sentiment of the Democratic members on off while looking down the muzle of a shotgun to see if it was loaded. the new tariff bill which has been presented by the minority of the commitsented by the minority of the committee on ways and means. There are, of course, members of the house who are not satisfied with the bill, and who will no doubt vote for some changes, yet it is apparent from the way they talk if the bill should come to a vote in its present form it would pass with few dissenting members among the Demo-

A member of the Democratic majority of the committee voiced this sentient of a number of Democrats when he said the bili

Would Not Need Much Discussion in the house; what was wanted was to get the bill over to the senate at an early a day as possible. The president's approval of the Wilson tariff bili will go a long way toward uniting the party if there had been any differences of opinion of any remarkable degree. Those who did not pre-tend to know so much about it must be content with what the party has done through its committee, for it is prob-able that the committee has made a most thorough and careful investigation and that it is able to better judge what is wanted than those who have not given the matter any consideration.

such Is the Cut to Be Made in Appropris tions This Year.

WASHINGTON, Dec. 4 .- In meeting the deficiency in revenues Democrats do not intend to confine themselves to the matter of raising revenue, but propose to split the difference and with one hand reduce expenditures, while with the other they gather in the shekels.

The appropriations committee is now working preparing bills for the coming session. It is understood bills to be re-ported will make cuts all along the line, and that the aggregate in reduc-tion of expenditures, regardless of what apparent necessities may be, will amount to many millions. The purpose is to make a slaughter of appro-priations so as to bring expenditures as nearly as possible down to the revenue which can be raised under the Democratic policy of low tariff and no tariff. It is believed that the cuts will amount to at least \$20,000,000, and may be greatly more.

The How of It.

How poor, how rich, how abject, how august, how accomplicated, how would, of course, be necessary for the Democrats to have behind them a good working majority, or at least a quorum of the house in favor of the bill.

It now looks as if there would not be much difficulty in securing such a quorum if the talk indulged in by the Democrats that have thus far arrived is any indication of the sentiment of those who have said nothing. In all the number whom may be heard talking on the subject, none go so far even in private conversation as to say that unless some modifications are made that they will oppose the bill.
